PROJECT

E-Localhood - (Your Business Our Priority)

Description : E-Localhood is the e-commerce website containing Customer, Seller & Service Provider. The main motive of working on this is to give small business a platform to grow there business. The Main motive of this is to help small business and local shops to grow their **RR (Reach and Revenue)** with the help of this website.

Technology: React, JavaScript, HTML, CSS, Axios, Figma.

My Contribution : I have worked on Frontend in Customer part. It contains Registration Page, Login, Homepage, Search bar, Product search, list, Add product to cart, Delete, Update, Buy, Report(PDF) .

<https://github.com/DarshanKGithub/E-Localhood---Customer-Module.git>

Student Attendance Management System

Technology: HTML, CSS, JavaScript

In this project I Worked for frontend part, It's a **attendance portal** where teacher can take attendance online, I did Login page, Signup page, and admin portal where teacher can take attendance. This is basic UI to handle all the things.
